San Francisco State University
Alcohol and Drug Policy
(Reviewed: May 2006, June 2015)

The University, in its responsibility to students, faculty and staff, has developed policies and guidelines on alcohol and drug usage on the campus. San Francisco State University expects the campus community as well as external groups to be aware of all state and local laws with reference to possession, serving and consuming of alcohol; to inform decisions about alcohol and drug use; and to be responsible for the consequences of those decisions.

For your information, the University is providing you with San Francisco State University Guidelines for Alcohol and Drug usage. These policies apply to all members of the University, to all University-sponsored activities and non-sponsored activities as outlined.

Purpose
The following policy and guidelines will define the regulations for the serving of alcohol beverages, at University sponsored functions, at on-campus and off-campus locations as well as non-sponsored activities as outlined in the University Facilities User's Guide Handbook. The intent of this directive is to regulate by policy consumption of alcohol on the campus under carefully prescribed conditions. This policy will address Alcohol and Illegal Drugs.

I. Current California Law-Alcohol

If the occasion should require, any administrator senior to the designee may exercise this authority.

II. Types of Alcohol Related Activities

University Sponsored Activities:

1. Attendance shall be limited to members of the University and their invited guests.

2. The event shall not be publicized to the general public nor advertised on campus as an event where alcoholic beverages will be served.

3. The host of the event and the sponsoring organization are responsible for compliance with applicable laws, regulations, University policies and this directive.

4. A University sponsored event which is held off-campus at a restaurant, hotel or club, where alcoholic beverages are normally served, may make special arrangements to serve alcoholic beverages; however, the persons sponsoring the event are still subject to California State Law for purchasing and/or supplying alcoholic beverages to any minor. The University exercises no supervision and assumes no responsibility to control the serving and consumption of alcoholic beverages off the university campus.

5. The University recognizes that there are many occasions for celebration at the university and that alcohol is often a part of the festivities. The university also recognizes that the classroom is not an appropriate place for the consumption of alcohol. Classroom consumption of alcohol is prohibited unless it is a part of the curriculum (such as supervised wine tasting).

University Non-Sponsored Activities (Rental of Facilities by Outside Organizations):

1. An application for permission to serve alcoholic beverages must be completed by all non-sponsored outside groups wishing to rent University facilities.

2. The application must be approved by the Department of Public Safety and the Office of Special Events / Conference Programs.

3. Outside groups renting university facilities for special events/activities must adhere to (Sections 25658 through 25665) California Business and Professional Code and university regulations.
4. Only Beer and wine may be served. No permit for sale of hard-alcohol will be granted.

III. Requirements When Serving Alcohol

1. Alcohol may not be served unless non-alcoholic beverages (in addition to water) and food are also served.

2. No person under legal drinking age of 21, nor any obviously intoxicated person shall be furnished, served, or given an alcoholic beverage.

3. Food and non-alcoholic beverages must be available without cost so long as alcohol can be consumed at no cost.

4. When events last two hours or more, service of alcoholic beverages must stop one-half hour before the close of the event.

5. The burden of proof for showing legal age of 21 is on the alcohol consumer. No service will be provided unless clear evidence of legal age is presented. It is the responsibility of those in charge of an event to assure that no one who is under the age of 21 is served any alcoholic beverages.

6. Consumption and serving of alcohol must be at or in the facility designated for the event.

7. There shall be no sale of alcohol without a "Temporary Alcohol Beverage License."

8. The sponsoring organization shall cease serving alcoholic beverages at the request of an appropriate university official.

9. All events on campus where alcoholic beverages are being served shall post a sign indicating that alcohol shall not be consumed by persons under the age of twenty-one.

III. Policy regarding the Sale of Alcohol by On-Campus Establishments that have Alcohol Permits

No service will be provided unless clear evidence of legal age is presented. It is the responsibility of those in charge of an event to assure that no one who is under the age of 21 is served any alcoholic beverages.

To promote the philosophy of responsible consumption on-campus establishments that sell alcohol should avoid marketing strategies that promote over-consumption by students.

1. By serving beer and wine only, not “liquor look-a-likes.”
2. By eliminating drink specials such as “2 for one” and “super-sized” drinks (defined as larger than pint)

Illegal Drugs

The sale, manufacture, distribution, use, or possession of illegal drugs are against San Francisco State University policy. This policy applies equally to all administrators, faculty, staff and students.

University Administrative Sanctions for Violation of the Illegal Drug Policy
1. The manufacture, use or possession of illegal drugs* by a member of the University community will normally result in either probation, suspension from, or severance of, the relationship with the University. Sale or distribution thereof will normally result in severance of the relationship with the University. This policy applies within or upon the grounds, buildings or any other facilities of the University or at University sponsored activities off-campus.

Penalties for possession off-campus at a non-University sponsored activity will be considered, if the amount of possession is considered sufficient for intent to sell.

2. All California Penal Statutory Laws will be enforced and must be complied with.

Counseling and Psychological Services Center and Counseling and Psychological Services and Prevention Education Programs are available to assist employees who wish to seek professional help in finding appropriate referrals. Employees of the University are encouraged to refer students to these services for assistance with substance abuse issues.

*Alcoholic beverages are legal under certain circumstances and thus are dealt with separately.

Administration

The chief administrative officer (or their designee) is designated to oversee the implementation of this policy and will establish periodic review of the process to assure conformity.

Resolution of Conflict

Where conflict occurs in the implementation of this policy, the chief administrative officers of the University (or their designees) will determine the course of action in consultation with the concerned host or representative and other administrative members of the University.

Scope of this Directive:

In addition to California Law, all campus procedures and restrictions must be adhered to. The intent of this directive is not to encourage the use of alcohol, but to regulate by policy, limited consumption of alcohol on the campus under carefully prescribed conditions.

It is also the intent of this policy to encourage the use of campus counseling departments. Employees should be referred to Human Resources’ Employee Assistance Program for problems related to alcohol and drug abuse. Students should be referred to Counseling and Psychological Services and the Student Health Center. San Francisco State University strives for a drug free work environment. See the Executive Order on a drug free work place.
